

WEEE CYPRUS LTD MEMBERSHIP AGREEMENT

The present Agreement is compiled today, ..., in between:

1. WEEE CYPRUS LTD, a not-for-profit company incorporated at the initiative of the Cyprus Chamber of Commerce and Industry under Cyprus law, with registered offices at 229 Tseriou Av. 2047 Stovolos, Nicosia, Cyprus, under registration number 166052 hereafter called « **WEEE CYPRUS**»,

and:

2., a company incorporated under the laws of, with registered offices at
..., under registration number, hereafter called the «**Producer**».

WHEREAS:

The European Parliament and Council Directive 2012/19/EU for Waste Electrical and Electronic Equipment (WEEE) have been transposed into Cyprus Legislation by means of Regulation 73/2015 (voted and enacted in March 2015), for the management of WEEE based on article 54(2)(b) and (4) of the Waste Law (framework Law) of 2011 to 2015 (hereafter called the «WEEE Regulations») which provide:

- I. By virtue of the Regulation and the Directive for WEEE, Electrical and Electronic Equipment Producers are obliged to finance the collection of Waste Electrical and Electronic Equipment (WEEE), to accept returned WEEE free of charge, to organize the transfer of WEEE from the collection points to an accredited treatment facility and to ensure their reuse or their environmentally sound recycling. To give maximum effect to the concept of “Producer Responsibility” each Producer is responsible for financing the management of the WEEE from its own brand(s). The affected enterprises may be relieved from these obligations either by setting up an authorized individual compliance system, or by joining a collective collection and recovery system for all the WEEE they place in the market and thus transfer their legal obligations, under the Regulation and the EU Directives, to this system (participation in a collective compliance system). By participating in an accredited collective compliance system, the WEEE Producer is relieved from any other responsibility for the treatment of its WEEE and the respective responsibility is transferred to the collective system it participates in. Producers that have placed in the market household WEEE, before the 13th of August 2005 can only undertake their legal responsibility for such WEEE only by participating in to an accredited Collective Collection and Recovery System. Despite the fact that the Producers’ participation in a Collective Compliance System relieves them from their legal obligations, they still may undergo certain checks from the relevant authorities in order to ascertain that they abide by System rules and the Law.

- II. Taking into consideration the recommendations of the Waste Management Advisory Committee, the Minister of Agriculture, Natural Resources and the Environment, approved WEEE CYPRUS as a Collective Management System for Waste Electrical and Electronic Equipment (hereafter called «the System»), in accordance with the Law with an accreditation number 01/SSDE/30.06.2026. The Accreditation of WEEE is valid from the 19th of June 2020 to 30th of June 2026, and can be renewed for successive six-year periods following a relevant application submitted six months prior to the expiration of the accreditation.
- III. WEEE CYPRUS is a not-for-profit organization, whose activities are not intended to yield a profit, as provided by the Law.
- IV. In view of the above, the Producer wishes, in order to fulfil its obligations pertaining from the Regulation for WEEE, to participate in the WEEE CYPRUS Collective System based on the terms and conditions described in this Agreement.

In view of the foregoing, it has been agreed as follows:

Article 1 Definitions

1.01. «Agreement»

means the present document, as signed, along with any modifications and additional elements that may later be agreed.

1.02. «Regulation for Waste Electrical and Electronic Equipment, (Regulation for WEEE»

means the Solid and Hazardous Waste Regulations (Waste Electrical and Electronic Equipment K.D.P.668/2004) of 2004, based on Article 5 of the Solid and Hazardous Waste Law of 2002.

1.03. «Electrical and Electronic Equipment or (EEE) »

means equipment which is dependent on electric currents or electromagnetic fields in order to work properly and equipment for the generation, transfer and measurement of such currents and fields falling under the categories set out in Annex IA and designed for use with a voltage rating not exceeding 1000 Volt for alternating current and 1500 Volt for direct current.

1.04. «Waste Electrical and Electronic Equipment (WEEE)»

means electrical or electronic equipment which is waste within the meaning of Article 2 of the Law, including all components, subassemblies and consumables which are part of the product at the time of discarding.

1.05. «Historical Waste Electrical and Electronic Equipment»

means waste from products that were placed in the market before the 13th of August 2005.

1.06. «Treatment»

means any activity after the WEEE has been handed over to a facility for depollution, disassembly, shredding, recovery or preparation for disposal and any other operation carried out for the recovery and/or the disposal of the WEEE.

1.07. «Collective Compliance System for WEEE»

means the organization, on a collective basis, of operations for collection, transfer, temporary storage and treatment of WEEE.

1.08. «Participation in a Collective Compliance System for WEEE»

means the transfer of obligations of producers of WEEE under the WEEE Regulation to an accredited collection, recovery and management system by way of contract, thereby passing on these obligations to the operator of the system.

1.09. «Producer»

means any natural or legal person who, irrespective of the selling technique used, including distance communication within the meaning of Directive 97/7/EC of the European Parliament and of the Council of 20 May 1997 on the protection of consumers in respect of distance contracts (1):

- (i) is established in a Member State and manufactures EEE under his own name or trademark, or has EEE designed or manufactured and markets it under his name or trademark within the territory of that Member State;
- (ii) (ii) is established in a Member State and resells within the territory of that Member State, under his own name or trademark, equipment produced by other suppliers, a reseller not being regarded as the 'producer' if the brand of the producer appears on the equipment, as provided for in point (i);
- (iii) (iii) is established in a Member State and places on the market of that Member State, on a professional basis, EEE from a third country or from another Member State; or
- (iv) (iv) sells EEE by means of distance communication directly to private households or to users other than private households in a Member State, and is established in another Member State or in a third country.

Whoever exclusively provides financing under or pursuant to any finance agreement shall not be deemed to be a 'producer' unless he also acts as a producer within the meaning of points (i) to (iv).

1.10. «Distributor»

means any person who provides electrical or electronic equipment on a commercial basis to the party who is going to use it.

1.11. «WEEE from private households»

means WEEE which comes from private households and from commercial, industrial, institutional and other sources which, because of its nature and quantity, is similar to that from private households.

1.12. «Dangerous substance or preparation»

means any substance or preparation which has to be considered dangerous under the Dangerous Substances Law of 1991 and the Dangerous Substances (classification, packaging and labelling dangerous substances) Regulations.

Article 2 Purpose of the Agreement

The purpose of the Agreement is the participation in the Collective System organized by WEEE CYPRUS and the fulfilment by the WEEE Producer of its obligations provided by the Regulation. Therefore, the Agreement describes:

- a) The conditions for participating in the System set-up by WEEE CYPRUS.
- b) The terms concerning the use of the WEEE CYPRUS mark.

Article 3 Territory

This Agreement has effect and applies only in the Cypriot territory – area controlled by the Republic of Cyprus hereafter called «the Territory». This means that the responsibility undertaken by WEEE CYPRUS on behalf of the Producer of WEEE is strictly limited to the products placed by the Producer in the local market (the Territory).

Article 4 Declaration of Household Waste Electrical and Electronic Equipment

4.01 For the purpose of enabling WEEE CYPRUS to fulfil its obligations deriving from this Agreement and the Regulation, the WEEE Producer shall provide WEEE CYPRUS, no later than 10 days after the completion of each quarter with a Quarterly Declaration of the actual amount of WEEE placed by the Producer in the market during the previous quarter («The Quarterly Declaration»).

Therefore, the four Quarterly Declarations should be submitted as follows:

Period		Date of Submission
1	January – March	10 April
2	April – June	10 July
3	July – September	10 October
4	October – December	10 January

4.02 Smaller WEEE Producers (as these are defined by the System) are exempted and will only submit a Yearly Declaration of the actual amount of WEEE placed in the market the previous year. This Declaration shall have the same form as Annex 1 and must be submitted to the System until the 20th January of each year for the previous year.

4.03 The format of the Declaration has been decided by WEEE CYPRUS and is accepted by the Producer. This format is included in Annex 1 of the present Agreement. WEEE CYPRUS has the right to change the format of the Declaration, and shall inform the Producer of any changes at least two months prior to the end of each year. It is understood that, any Declaration format or any changes in the above-mentioned Declaration should be effected according to the Regulations. The data required to fill in the Declaration

will be limited to those that WEEE CYPRUS considers essential to conform to the Law and the relative Regulations.

4.04 WEEE CYPRUS undertakes to maintain complete confidentiality of the data transmitted to it, either directly by the Producer, or of which WEEE CYPRUS might acquire knowledge in the implementation of the Agreement. This confidentiality clause implies that no financial or commercial or other information will be communicated to other members, to shareholders or any other third party. This obligation for confidentiality will not prevent or prejudice the obligations that WEEE CYPRUS may have vis-à-vis the public or other government authorities or any other person invested with a special power by virtue of any act of legislative provision whatsoever to provide them with certain information.

4.05 Every Declaration submitted shall be certified as correct by the legal representative of the Producer. WEEE CYPRUS reserves the right to request the Declaration to be certified by the certified external auditors of the Producer. This certification shall be done at the expense of the Producer.

4.06 WEEE CYPRUS is entitled to undertake any audits (after formal notification to the Producer), whenever necessary, to ensure that the Declaration data submitted is correct. WEEE CYPRUS reserves the right to undertake these audits either with its own staff or to employ certified external auditors bound by professional confidentiality to undertake the audits. WEEE CYPRUS shall cover the cost of these audits, unless the audit results show that the Producer's Declaration was wrong and contributions calculated were less than the actual in terms of contributions, in which case the cost of the audit shall be covered by the Producer.

Article 5 Registration Fees

5.01 A Producer enrolling as a Member, upon the signing of the present agreement, shall pay as a registration fee the amount of €500 plus VAT. This fee is intended for the distribution of the initial set-up costs of the organization between all the Members and to cover the Member initial registration cost. The registration fees are non-refundable.

5.02 A Producer who is already a Shareholder of WEEE CYPRUS and has already contributed €3,420 as share capital shall pay WEEE CYPRUS, upon the signing of this Agreement, the amount of €1.

Article 6 Funding Contributions

6.01 In order to enable WEEE CYPRUS to fulfil its obligations according to the Regulation, the Producer shall pay to WEEE CYPRUS annual contributions for financing the System. The contributions apply and shall be paid to the System from the 1st of December 2009.

6.02 These quarterly contributions concern and will be due to the System for WEEE placed in the market within the Territory by the Producer during the quarter as provided by the Producer on the Declaration to be submitted to the System according to Article 4 of this Agreement.

6.03 Payment of contributions to the System shall be made via bank transfer or bankers' cheque or, any other payment method approved by WEEE CYPRUS. All invoices are payable thirty (30) days from their receipt. Any dispute concerning invoices should be submitted by registered mail within 10 calendar days from the invoice date to be valid.

6.04 The contributions of the Producer are calculated based on the quantities of the WEEE placed within the Territory and according to the Contribution Catalogue included in Annex 2 of the Agreement. To carry out its assignment, WEEE CYPRUS shall be able within the limits allowed by the Law and by duly reasoned resolution of its Board of Directors to revise the Contribution Catalogue and to fix the date on which such revision shall come into effect.

6.05 If the Producer does not submit its Declaration in due time, it shall be responsible for the delay and shall pay agreed compensation with an amount equivalent to 1% of the equivalent contribution per month of delay, with a minimum of fifty (€50) Euro per month and a maximum of three thousand five hundred Euro (€3,500) per month. In the event that WEEE CYPRUS, after a period of six months, calculated in accordance with articles 4.01 and 4.02 respectively, has not yet received the Declaration, WEEE CYPRUS will be legally entitled to dissolve the Agreement in accordance with Article 11 of the Agreement.

6.06 In the event that WEEE CYPRUS, by any means available to it under the Law and in particular by means of the audits referred to in article 4.06, ascertains that false statement is contained in the Declaration of the Producer, the Producer shall be obliged to pay to WEEE CYPRUS, on the one hand, the contributions not paid plus interest on the sums due and not paid, calculated at the running legal lending interest rate of the European Central Bank plus 6%. In the event of a second breach, WEEE CYPRUS shall automatically be entitled to consider the Agreement terminated.

Article 7 Contribution Retroactivity

7.01 The obligation for the payment of fees commences, according to article 6.01 of this Agreement, from the 1st of December 2009. This applies to all Members, irrespective of the date of their registration to the System. This means that Members enrolling after the 1st of December 2009 shall pay contributions retroactively for the WEEE they had placed in the market from the 1st of December 2009. The retroactive contributions will be calculated based on the Declarations for each preceding quarter that the Producer must submit to WEEE CYPRUS and the Catalogue Fees valid during the specific time period. In addition, the Producer shall have to pay a 6% interest on the delayed amounts.

7.02 It is clarified that retroactivity applies for Producers enrolling as Members after the 1st of December 2009, which were according to their activities Producers during the period, or part of the period, from the 1st of December 2009 until their enrolment date to the System.

7.03 The terms of payment of any retroactive contributions owed to the System shall be agreed upon with every new Member according to the amount due.

Article 8 Use of the WEEE CYPRUS Mark

8.01. With the present Agreement and for all its duration, WEEE CYPRUS grants and the Producer accepts according to the terms and conditions of the Agreement, a non-exclusive right of use of the Mark as described in Annex 3 of the Agreement. The Producer has the right to use the Mark as proof of

participation to the System either placed directly on EEE or their packing, or on price tags at the point of sale, or as an exhibit in a prominent position in its shops.

8.02. The non-exclusive right of use of the Mark granted by WEEE CYPRUS to the Producer means that WEEE CYPRUS reserves the right to grant an equivalent right of use to all Producers participating in the System, without restrictions, through the individual Agreements signed with them.

8.03. The Producer shall not assert any rights over the Mark other than those expressly extended to it. The Producer acknowledges that by the Right of Use, it will not acquire any right of ownership or other right on the Mark, neither will it have in any way the authorization to provide any sublicense for the use of the Mark, or to transfer the rights of such use to a third party, including any third party belonging to the same group of companies.

Article 9 Accreditation of the Collective Management System of WEEE

9.01 WEEE CYPRUS undertakes to abide by the obligations laid down in the Law, to obtain and retain the necessary System Accreditation from the relevant Authorities, to fulfil any obligations enforced by the relevant authorities through the Accreditation and thereby, under the conditions laid down in the Law and the Regulations, to release the Producer from its obligations regarding the management of household WEEE, or non-household WEEE in the case that the Producer chooses to declare them to the System.

Article 10 Duration

The Agreement is in effect from the 1st of December 2009 irrelevant as to when it is signed, without prejudice to the provisions of article 7.0 regarding the retroactivity of the fees. The Agreement will remain in force until the date of expiration of the Accreditation of the System by the relevant Authorities (30th of June 2026) and will be renewed automatically up until the next date of expiration of the Accreditation of the System. In case, and despite the fact that the System has applied in due time for the renewal of its Accreditation, the official decision on the renewal of this Accreditation is delayed beyond the date of expiration of the Accreditation, then the present Agreement is automatically extended and remains in force until the issuance of the official decision.

Article 11 Termination

11.01 The Agreement shall terminate automatically in the event that the Accreditation of WEEE CYPRUS should be definitively withdrawn by the relevant Authorities. In no event shall WEEE CYPRUS be liable for any damages or compensation, unless found guilty of some deliberate act or serious negligence.

11.02 The Agreement shall be terminated by the Producer if, thirty days after sending WEEE CYPRUS a written request to cease breach of any of its obligations, said breach has not effectively ceased or no adequate explanation has been provided to the Producer.

11.03 Except in the case of premature termination, the Agreement may be legally terminated at WEEE CYPRUS' demand, without legal formalities or judicial intervention:

- in the event that the Producer fails to effect payment of any sum due, fifteen working days after notice has been served by registered post for this purpose;

- in the event of any serious fault on the part of the Producer committed in relation to the obligations incumbent upon it under the Agreement and which has not been remedied within ten working days of notice of default served by WEEE CYPRUS or no sufficient explanation has been given to the satisfaction of WEEE CYPRUS.

11.04 Any early termination, shall take effect without any judicial intervention, even under summarized proceedings, by mere notification sent by registered post by the party wishing to assert its prerogative.

11.05 In the event of termination of the Agreement for whatever reason, neither of the parties shall be bound to the other in terms of damages, indemnities for termination or any other sums laid down by Law or otherwise, with the exception of that which may be due and payable in accordance with the terms of this Agreement. It is understood that all outstanding invoices at the time of termination of the Agreement are due in full. Any amount paid as an advance relating to the period after the termination, is deemed as a partial indemnity to WEEE CYPRUS.

Article 12 General Provisions

12.01. Notices and domicile

Any notice that may be required to be made by one party to the other within the context of the Agreement, unless otherwise expressly provided for, shall be duly and properly served when sent by registered letter with acknowledgement of receipt posted to the other party. The Producer is considered for the purpose of serving notices, to be domiciled at the address stated on the first page of this Agreement and to remain there throughout its duration, as long as WEEE CYPRUS has not been notified in writing of the existence of a new domicile.

12.03. Non-transferability

The Producer shall, in no event, assign the Agreement to a third party without the prior written consent of WEEE CYPRUS.

12.04. Applicable Law

This Agreement is governed by Cyprus Law. The responsible authorities for the settlement of any disputes possibly arising from the present agreement are the Courts of the Republic of Cyprus.

12.05 Liability

In no event shall WEEE CYPRUS be liable for damages or interest, unless found guilty of some deliberate act or serious negligence.

12.06 Modifications and amendments

Any modifications and amendments to the Agreement must be drawn up in writing and signed by representatives duly authorized by the parties.

12.07 All the provisions of this Agreement are essential.

12.08 Prior agreements

This Agreement overrides and supersedes, with effect at the time when it comes into force, any oral or written agreements previously entered into by the parties and concerning the same subject-matter.

12.09 Annexes

The Annexes hereto form an integral part of the Agreement.

The current document is signed in two originals, whereby each party acknowledges having received the original destined for it.

Toasters
Fryers
Grinders, coffee machines and equipment for opening or scaling containers or packages
Electric knives
Appliances for hair-cutting, hair drying, tooth brushing, shaving, massage and other body care appliances – Clocks, watches and equipment for the purpose of measuring, indicating or registering time
Scales

1a Air conditioners

Large cooling appliances
Air conditioners

2 IT and telecommunications equipment

Centralized data processing
Mainframes
Mini computers
Printer units

Personal computers (CPU, mouse and keyboard included)

Laptop computers (CPU, mouse and keyboard included)

Notebook computers

Notepad computers

Copying equipment

Electrical and electronic typewriters

Pocket and desk calculators and other products and equipment for the collection, storage, processing, presentation or communication of information by electronic means

User terminals and systems

Facsimile

Telex

Telephones

Pay telephones

Cordless telephones

Cellular telephones

Answering systems and other products of transmitting sound, images or other information by telecommunications

3 Consumer goods

Radio sets

Video cameras

Videorecorders

Hi-fi recorders

Audio amplifiers

Musical instruments and other products or equipment for the purpose of recording or reproducing sound or images, including signals or other technologies for the distribution of sound and image than by telecommunications

4 Lighting fittings

Luminaires for fluorescent lamps with the exception of luminaires in households

Other lighting or equipment for the purpose of spreading or controlling light with the exception of filament bulbs

5 Electrical and electronic tools (with the exception of large-scale stationary industrial tools)

Drills

Saws

Sewing machines

Equipment of turning, milling, sanding, grinding, sawing, cutting, shearing, drilling, making holes, punching, folding, bending or similar processing of wood, metal and other materials

Tools for riveting, nailing or screwing or removing rivets, nails, screws or similar uses

Tools for welding, soldering or similar use

Equipment for spraying, spreading, dispersing or other treatment of liquid or gaseous substances by other means

Tools for mowing or other gardening activities

6 Toys leisure and sports equipment

Electric trains or car racing sets

Hand-held video game consoles

Videogames

Computers for biking, diving, running, rowing etc

Sports equipment with electric or electronic components

Coin slot machines

7 Medical devices (with the exception of all implanted and infected products)

Radiotherapy equipment

Cardiology

Dialysis

Pulmonary ventilators

Nuclear medicine

Laboratory equipment for in-vitro diagnosis

Analyzers

Fertilization tests

Other appliances for detecting, preventing, monitoring, treating, alleviating illness, injury or disability

8 Surveillance and control instruments

Smoke detector

Heating regulators

Thermostats

Measuring, weighing or adjusting appliances for household or as laboratory equipment

Other monitoring and control instruments used in industrial installations (e.g. in control panels)

9 Automatic dispensers

Automatic dispensers for hot drinks

Automatic dispensers for hot or cold bottles or cans

Automatic dispensers for solid products

Automatic dispensers for money All appliances which deliver automatically all kinds of products

10 Fluorescent lamps

Straight fluorescent lamps

Compact fluorescent lamps

High intensity discharge lamps, including pressure sodium lamps and metal halide lamps
Low pressure sodium lamps

11 Refrigerators

Refrigerators

Freezers (all types)

Other large appliances used for refrigeration, conservation and storage of food

12 Monitors and television sets

Television sets (all types)

Monitors (all types)

13 Toner

ANNEX III USE OF THE MARK

Basic rules for the use of the WEEE Cyprus Ltd mark

The Mark must be visible and clearly recognizable (as mentioned in Article 8.01).

The Mark may not be modified. It must be used in full. The Mark may not be completed with text or with other graphic elements without the explicit, prior and written permission of WEEE Cyprus Ltd. This also applies for other additions or modifications.

Presentation (various ways of use):

Colors:

If the Producer chooses to use the Mark in color the colors below should be used.

CMYK Version

C90 Y100 M35 K25

Pantone Version

P 357

The Mark may also be used with just one color on a white background, or on a color background.
